MOHAN A L

ASPIRING SOFTWARE DEVELOPER

Chennai, Tamilnadu | almohan0728@gmail.com | GitHub | LinkedIn

Motivated final year Computer Science Engineering student with solid skills in programming, full-stack development, and problem-solving. Adept at real-time web apps and backend architecture. Seeking growth in a dynamic tech environment.

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript, Python.
Web Development: React.js, Node.js, Express.js, HTML, CSS.
Databases: SQL, MongoDB, Oracle.
Tools/Concepts: Git, GitHub, DSA, Networks, DBMS, OS.

PROJECTS

Sign Language Avatar using Neural Language Understanding *Dec 2025 - Apr 2026*
Whisper ASR, Sentence-BERT, Unity, MediaPipe

- Developed a speech-to-gloss translation pipeline using Whisper ASR and Sentence-BERT to convert spoken language into sign-language representations
- Integrated Unity and MediaPipe to generate synchronized real-time 3D avatar animations for improved accessibility
- Designed the system to reduce communication barriers for hearing-impaired users through AI-driven sign-language visualization

Fridge2Fork – Recipe Recommendation System *Aug 2023 - Jan 2024*
Java, Spring Boot, MySQL, Thymeleaf, Edamam API

- Developed a full-stack recipe recommendation web application enabling users to search recipes based on available ingredients
- Designed MySQL database schema with Spring Data JPA to store and manage recipes with filtering by dietary preferences (vegan, vegetarian, gluten-free)
- Integrated Edamam Recipe Search API via REST calls to fetch real-time recipe data including nutrition info, ingredients, and cooking time
- Built REST API endpoints for recipe CRUD operations and dynamic search functionality with Thymeleaf-based server-side rendering

Realtime Pals – Real-Time Chat Application *Dec 2025 - Apr 2026*
React, TypeScript, Supabase, Tailwind CSS, shadcn/ui

- Developed a full-stack real-time chat application enabling users to send friend requests and exchange instant messages
- Designed PostgreSQL database schema with Row Level Security (RLS) policies using Supabase to manage user profiles, friendships, and messages securely
- Implemented real-time messaging using Supabase Realtime (WebSocket-based Postgres change broadcasts), eliminating the need for polling
- Built authentication and friend-request workflows with automated database triggers for profile creation and bidirectional friendship linking

KEY ACHIEVEMENTS

Leadership – Full Stack Project. Led and delivered a scalable full-stack solution in a team-based environment.
Academic Excellence. Scored 97.6% in Class 12th at VAARIAR Matriculation Higher Secondary School.
District Level Cutoff Recognition. Scored a cutoff of 199 in the HSC 2nd Year Exams and was recognized by Thiruvallur District during 2023-24.
Zonal Level Chess Player. Recognized as a good player at the zonal level chess competitions.

EDUCATION

B.E. Computer Science Engineering
Madras Institute of Technology, Anna University, Chennai.
Aug 2023 - Present
CGPA - 7.34/10

Class 12th
VAARIAR Matriculation Higher Secondary School.
Percentage - 97.6%
District Level Cutoff - Scored 199 cutoff in the HSC 2nd Year Exams, recognized by Thiruvallur District during 2023-24.

Class 10th
VAARIAR Matriculation Higher Secondary School.
Covid - All Pass

ADDITIONAL INFORMATION

Certifications: Math Lab Statistics Onramp, Basics of AI (IBM), Mobile Virtuality and AI – NPTEL (Score: 69%).
Languages: Tamil (Native or Bilingual Proficiency), English (Professional Working Proficiency).
Hobbies: Badminton, Reading, Gardening, Competitive Programming, Cricket, Chess.
